HOPKINS FOODSERVICE SPECIALISTS, INC.

This web page is written for building owners and their architects or design engineers in search of a qualified foodservice design firm to collaborate with on a new building or renovation project.

Hopkins Foodservice Specialists, Inc. is an ideal collaborator with building owners and their architectural-engineering design teams in providing quality foodservice for new or renovated buildings. The firm is noted for:

Design Excellence

- Accurate, precise programming
- Thoughtful, imaginative designs
- Well engineered, well coordinated documents

Process Excellence

- Responsiveness
- Cooperation
- Tools and systems to facilitate your work

Long Term Satisfaction

- Foodcourts where customers can find what they want quickly
- Kitchens with intelligent workstation layouts, and durable equipment
- Designs that promote profitability by saving labor and energy costs
- Excellent References

If you are interested in these attributes, please learn more about HOPKINS from this website, and call Lynn Hopkins to discuss your project or to request a company profile package.
